1. I had a long talk with [REDACTED] about "freezing" on the equipment to go into Building [REDACTED]. I asked him (and later asked Jim Garrison) to develop a detailed schedule in conjunction with the Office of Logistics for the move of the National Photographic Interpretation Center into Building [REDACTED] as fast as it was completed and beneficial occupancy could be obtained. I emphasized that this meant that they had to decide on what kind of equipment they needed, where they were going to get it, etc., and that long lead time articles should be ordered forthwith. H

2. Bob Amory telephoned to say that having been overruled twice by Mr. Dulles and General Cabell he now wanted to reopen the question of moving the Map Library into the building at Langley. He proposed to put this on the Agenda for the next Deputies' Meeting on Tuesday, 6 February. (I have discussed this with Jim Garrison and [REDACTED] and will be prepared to discuss it on Tuesday morning.) H 25X1A9a

3. [REDACTED] reported that the household effects of one of our employees contained two foot lockers which really belonged to and were destined for a Korean National living in San Francisco. He proposed to notify the Customs as soon as they arrived at Cameron Station. The employee involved has agreed to pay the freight to San Francisco, and Customs can open them there. I told him that this was the proper way to handle this situation.

4. I asked [REDACTED] to set up a meeting for [REDACTED] to meet with [REDACTED] and discuss the Deputy Director (Plans) proposal to transfer JOT's to DD/P rolls upon completion of their formal training. Charlie will let me know the outcome of this meeting.

5. I talked to Jim Garrison about getting out a questionnaire to determine possible transportation requirements prior to starting staggered working hours. He will work with the Office of Personnel on this and submit his proposal within the next few days.

6. I talked with [REDACTED] and Larry Houston about how best to meet the housing situation in the vicinity of [REDACTED] Admission Center" could be staffed without delay. Larry Houston said flatly that we could not grant cash allowances. He also would have considerable reservations about supplementing the monetary dislocation allowance of \$150. He believed that it was entirely [REDACTED] 25X1A6a
